RE: Chapel Road Water Main Replacement Detour
Batavia Township

Dear Commissioners:

Pursuant to Section 5543.17 of the Ohio Revised Code, I have determined that a road closure is necessary on Chapel Road, as it is impractical to construct a temporary highway, culvert, or bridge. This closure is necessary for a contractor working for the Clermont County Water Resources Department to replace the water main along Chapel Road.

Chapel Road will be closed to through traffic between SR 125 and address 251 Chapel Road on Wednesday, December 2nd, Thursday, December 3rd, and Monday, December 7, 2026. The December 2nd closure will require an overnight closure, while the closures on December 3rd and December 7th will take place between the hours of 7:00 AM and 5:00 PM. The length of the detour is approximately 3.02 miles or 15,928 feet.

The Office of the Clermont County Engineer shall notify the Communication Center and other affected agencies. All advanced warning and detour signs will be erected and maintained for this project. The contractor is responsible for installing and maintaining all detour signs throughout the duration of the closures. **Attached is the recommended detour.**

If you have questions or need additional information, please contact Eric Ely or Tommy Houlihan at 513-732-8857.

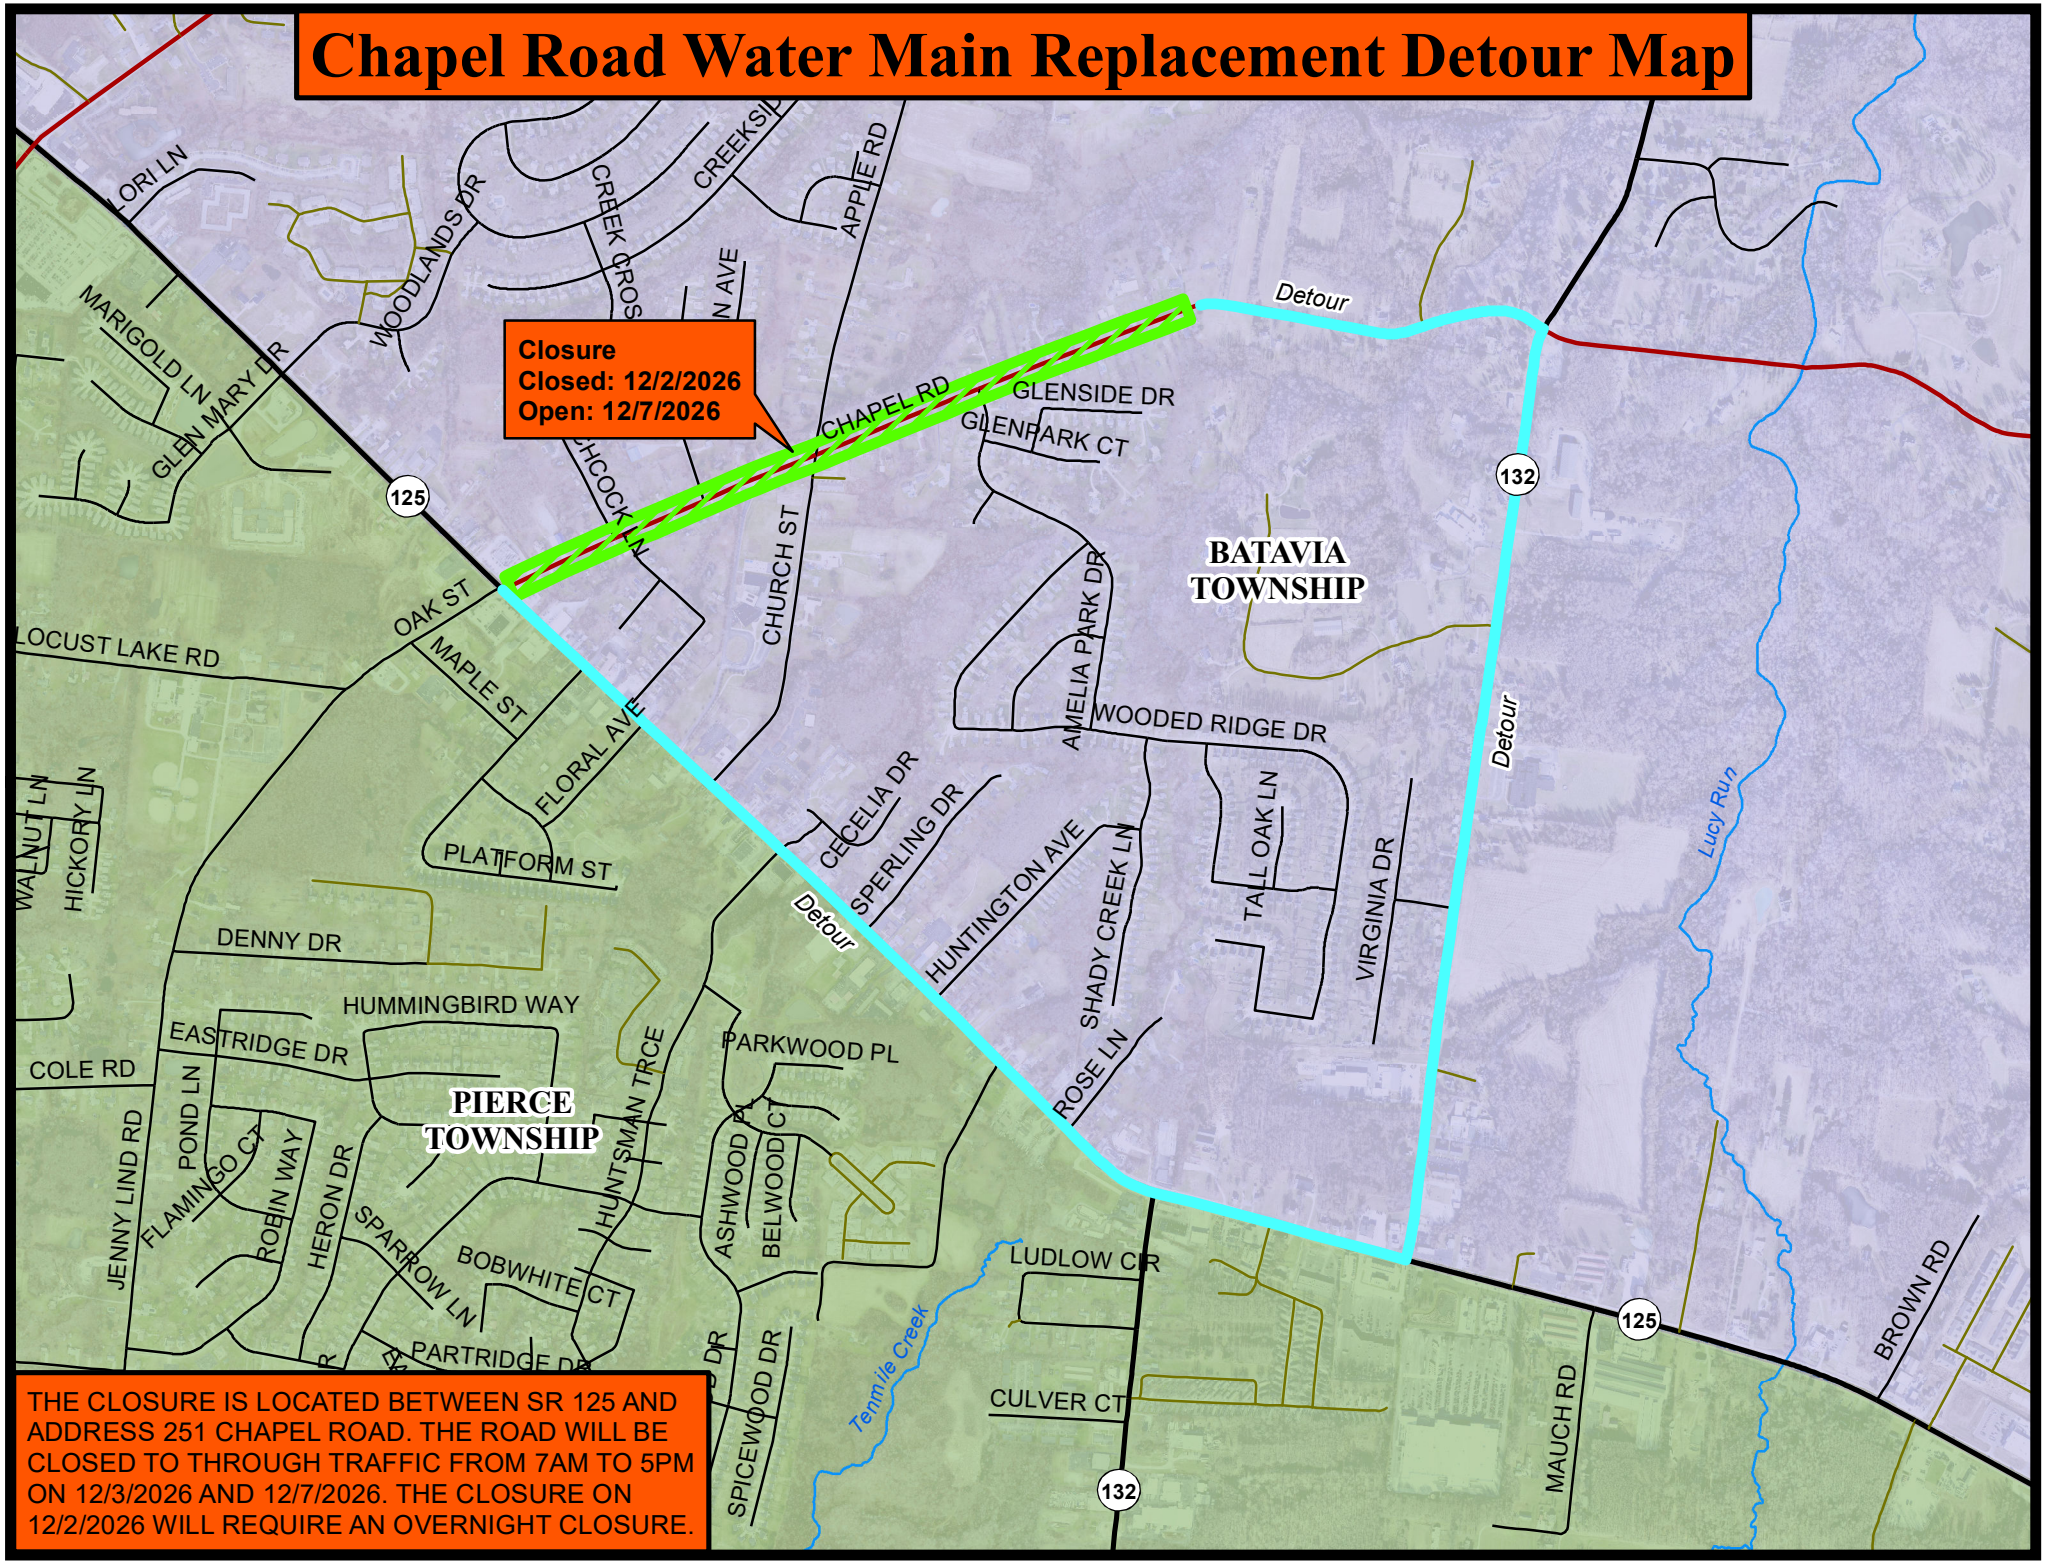

Sincerely,

Jeremy P. Evans, P.E., P.S.
County Engineer
