RE: Dry Run Road Bridge No. T233-1.33 Replacement Detour
Miami Township

Dear Commissioners:

Pursuant to Section 5543.17 of the Ohio Revised Code, I have determined that a road closure is necessary on Dry Run Road, as it is impractical to construct a temporary highway, culvert, or bridge. The closure is necessary to replace Dry Run Road Bridge No. T233-1.33.

The closure is located south of address 5288 Dry Run Road. **The road will be closed to through traffic beginning Thursday, September 24, 2026, through Saturday, November 14, 2026, to allow for the safe demolition and reconstruction of the bridge.** The length of the detour is approximately 8.64 miles or 45,643 feet.

The Office of the Clermont County Engineer shall notify the Communication Center and other affected agencies. All advanced warning and detour signs will be erected and maintained for this project. Our crews will install and maintain all detour signage for the duration of the project. **Attached is the recommended detour.**

If you have questions or need additional information, please contact Mark Schlosser at 513-732-8857.

Sincerely,

Jeremy P. Evans, P.E., P.S.
County Engineer
