RE: Herold Road Utility Work Detour
Batavia Township

Dear Commissioners:

Pursuant to Section 5543.17 of the Ohio Revised Code, I have determined that a road closure is necessary on Herold Road, as it is impractical to construct a temporary highway, culvert, or bridge. The closure is necessary for Duke Energy to install two new utility poles and remove an existing pole.

The closure is located 1000' north of SR 32 on Herold Road. **Herold Road will be closed to through traffic from 9AM to 2PM on Tuesday, September 15, 2026, and Wednesday, September 16, 2026.** The length of the detour is approximately 5.72 miles or 30,198 feet.

The Office of the Clermont County Engineer shall notify the Communication Center and other affected agencies. All advanced warning and detour signs will be erected and maintained for this project. The contractor will be responsible for installing and maintaining all detour signs. **Attached is the recommended detour.**

If you have questions or need additional information, please contact Lucas Braun at 513-732-8857.

Sincerely,

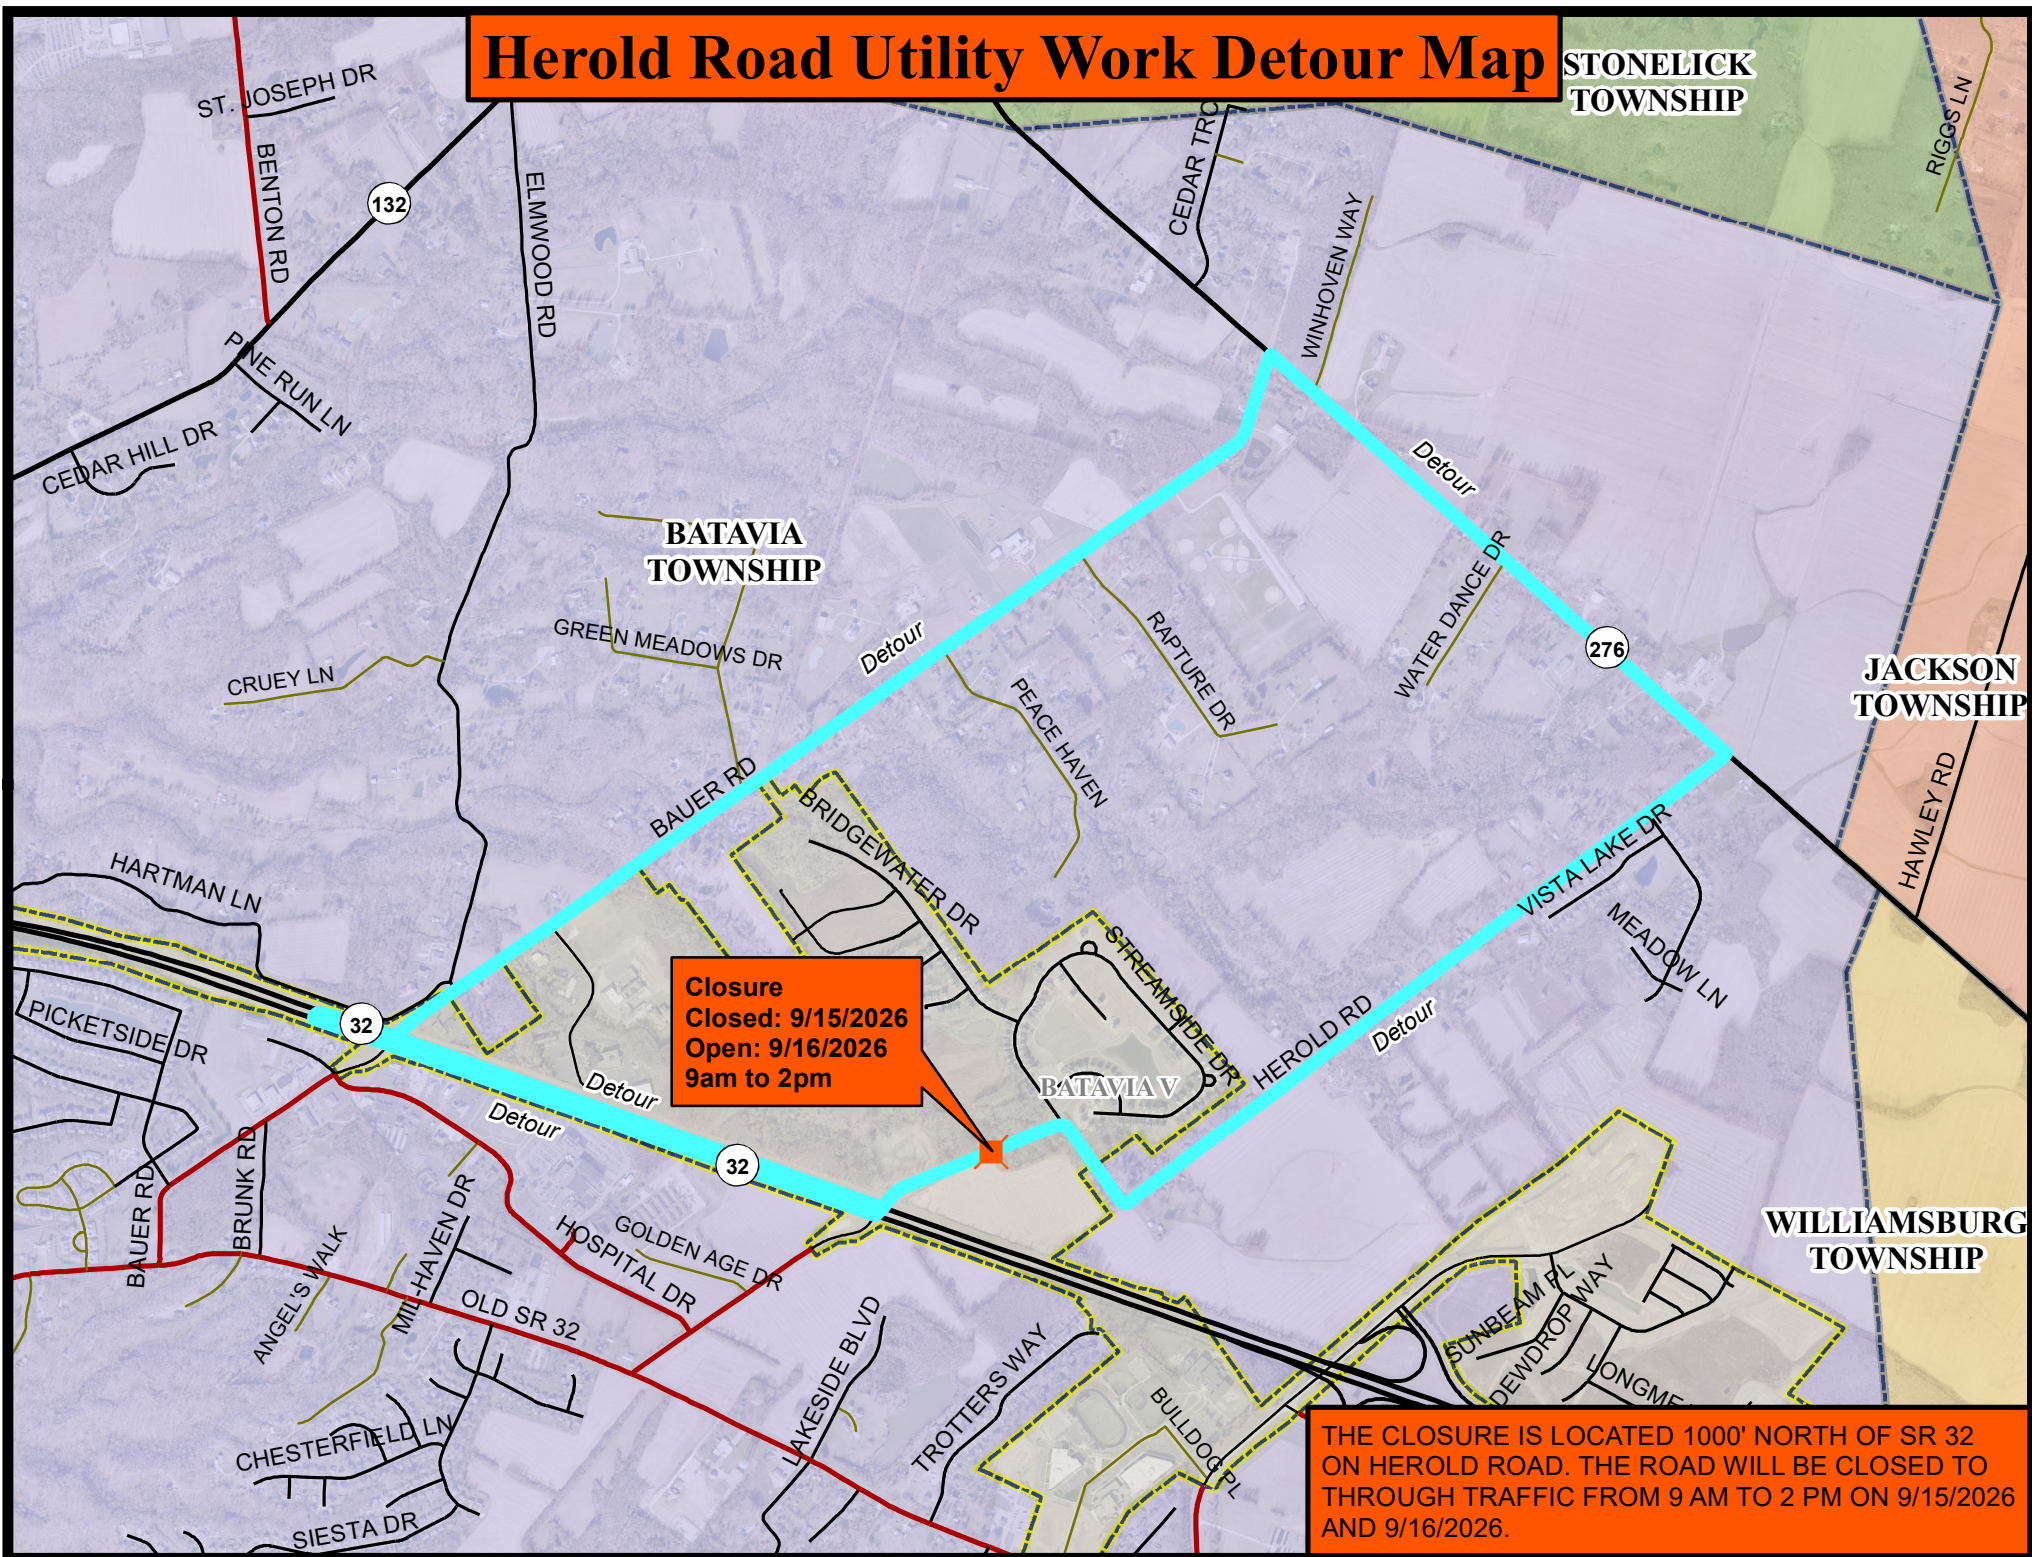

Jeremy P. Evans, P.E., P.S.
County Engineer
