RE: No. 9 Road Bridge No. T145-2.00 Maintenance Detour
Wayne Township

Dear Commissioners:

Pursuant to Section 5543.17 of the Ohio Revised Code, I have determined that a road closure is necessary on No. 9 Road, as it is impractical to construct a temporary highway, culvert, or bridge. The closure is necessary for our contractor to install waterproofing and new pavement on the bridge deck.

The closure is located between address 3660 and 3680 on No. 9 Road. **No. 9 Road will be closed to through traffic beginning at 7AM on Tuesday, August 18, 2026, and will remain closed 24 hours a day through Thursday, August 20, 2026, or until work is completed.** The length of the detour is approximately 5.71 miles or 30,175 feet.

The Office of the Clermont County Engineer shall notify the Communication Center and other affected agencies. All advanced warning and detour signs will be erected and maintained for this project. Our crews will install and maintain the advance notice and detour signage. The contractor will place barricades and signs at the project site. **Attached is the recommended detour.**

If you have questions or need additional information, please contact Mark Schlosser at 513-732-8857.

Sincerely,

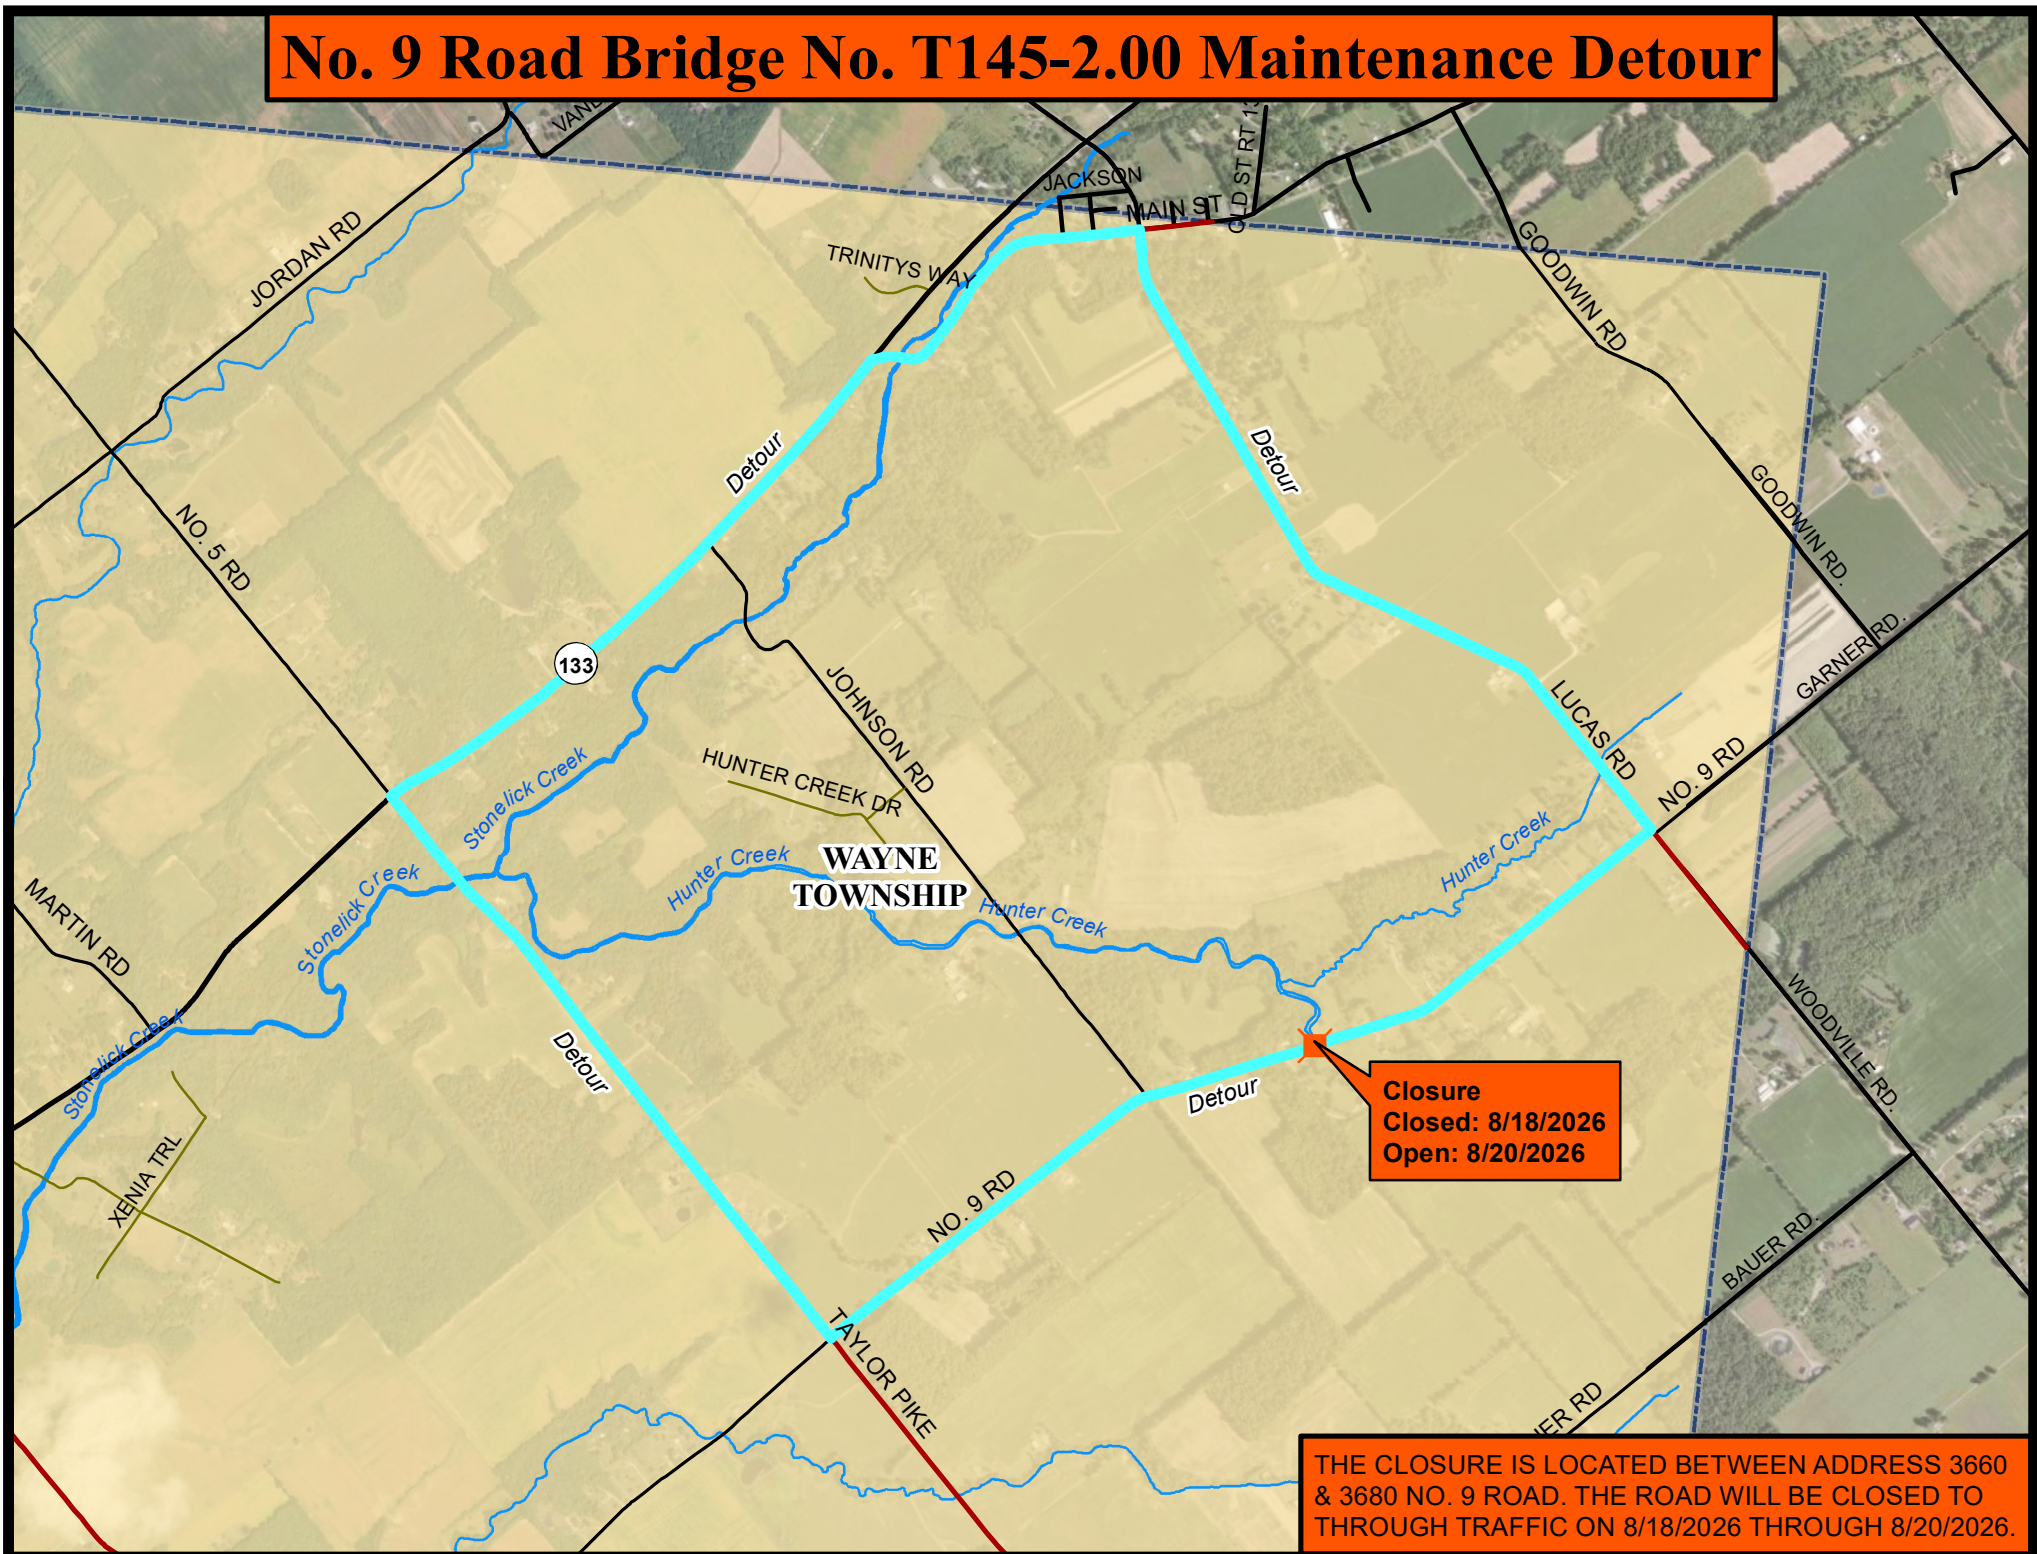

A handwritten signature in blue ink, appearing to read "Jeremy Evans".

Jeremy P. Evans, P.E., P.S.
County Engineer
