RE: Cole Road Landslide Repair Project Detour
Pierce Township

Dear Commissioners:

Pursuant to Section 5543.17 of the Ohio Revised Code, I have determined that a road closure is necessary on Cole Road, as it is impractical to construct a temporary highway, culvert or bridge. The closure is needed so that Pierce Township's contractor can repair a landslide along Cole Road.

The closure is located between address 3215 and 3233 Cole Road. **The road will be closed to through traffic on Monday, September 19, 2022 through Monday, November 14, 2022.** The length of the detour is approximately 4.74 miles or 25,017 feet.

The Office of the Clermont County Engineer shall notify the Communication Center and other affected agencies. All advanced warning and detour signs will be erected and maintained for this project by the contractor. **Attached is the recommended detour.**

If you have questions or need additional information, please contact Doug Royer at the Clermont County Engineer's Office at (513) 732-8857.

Sincerely,

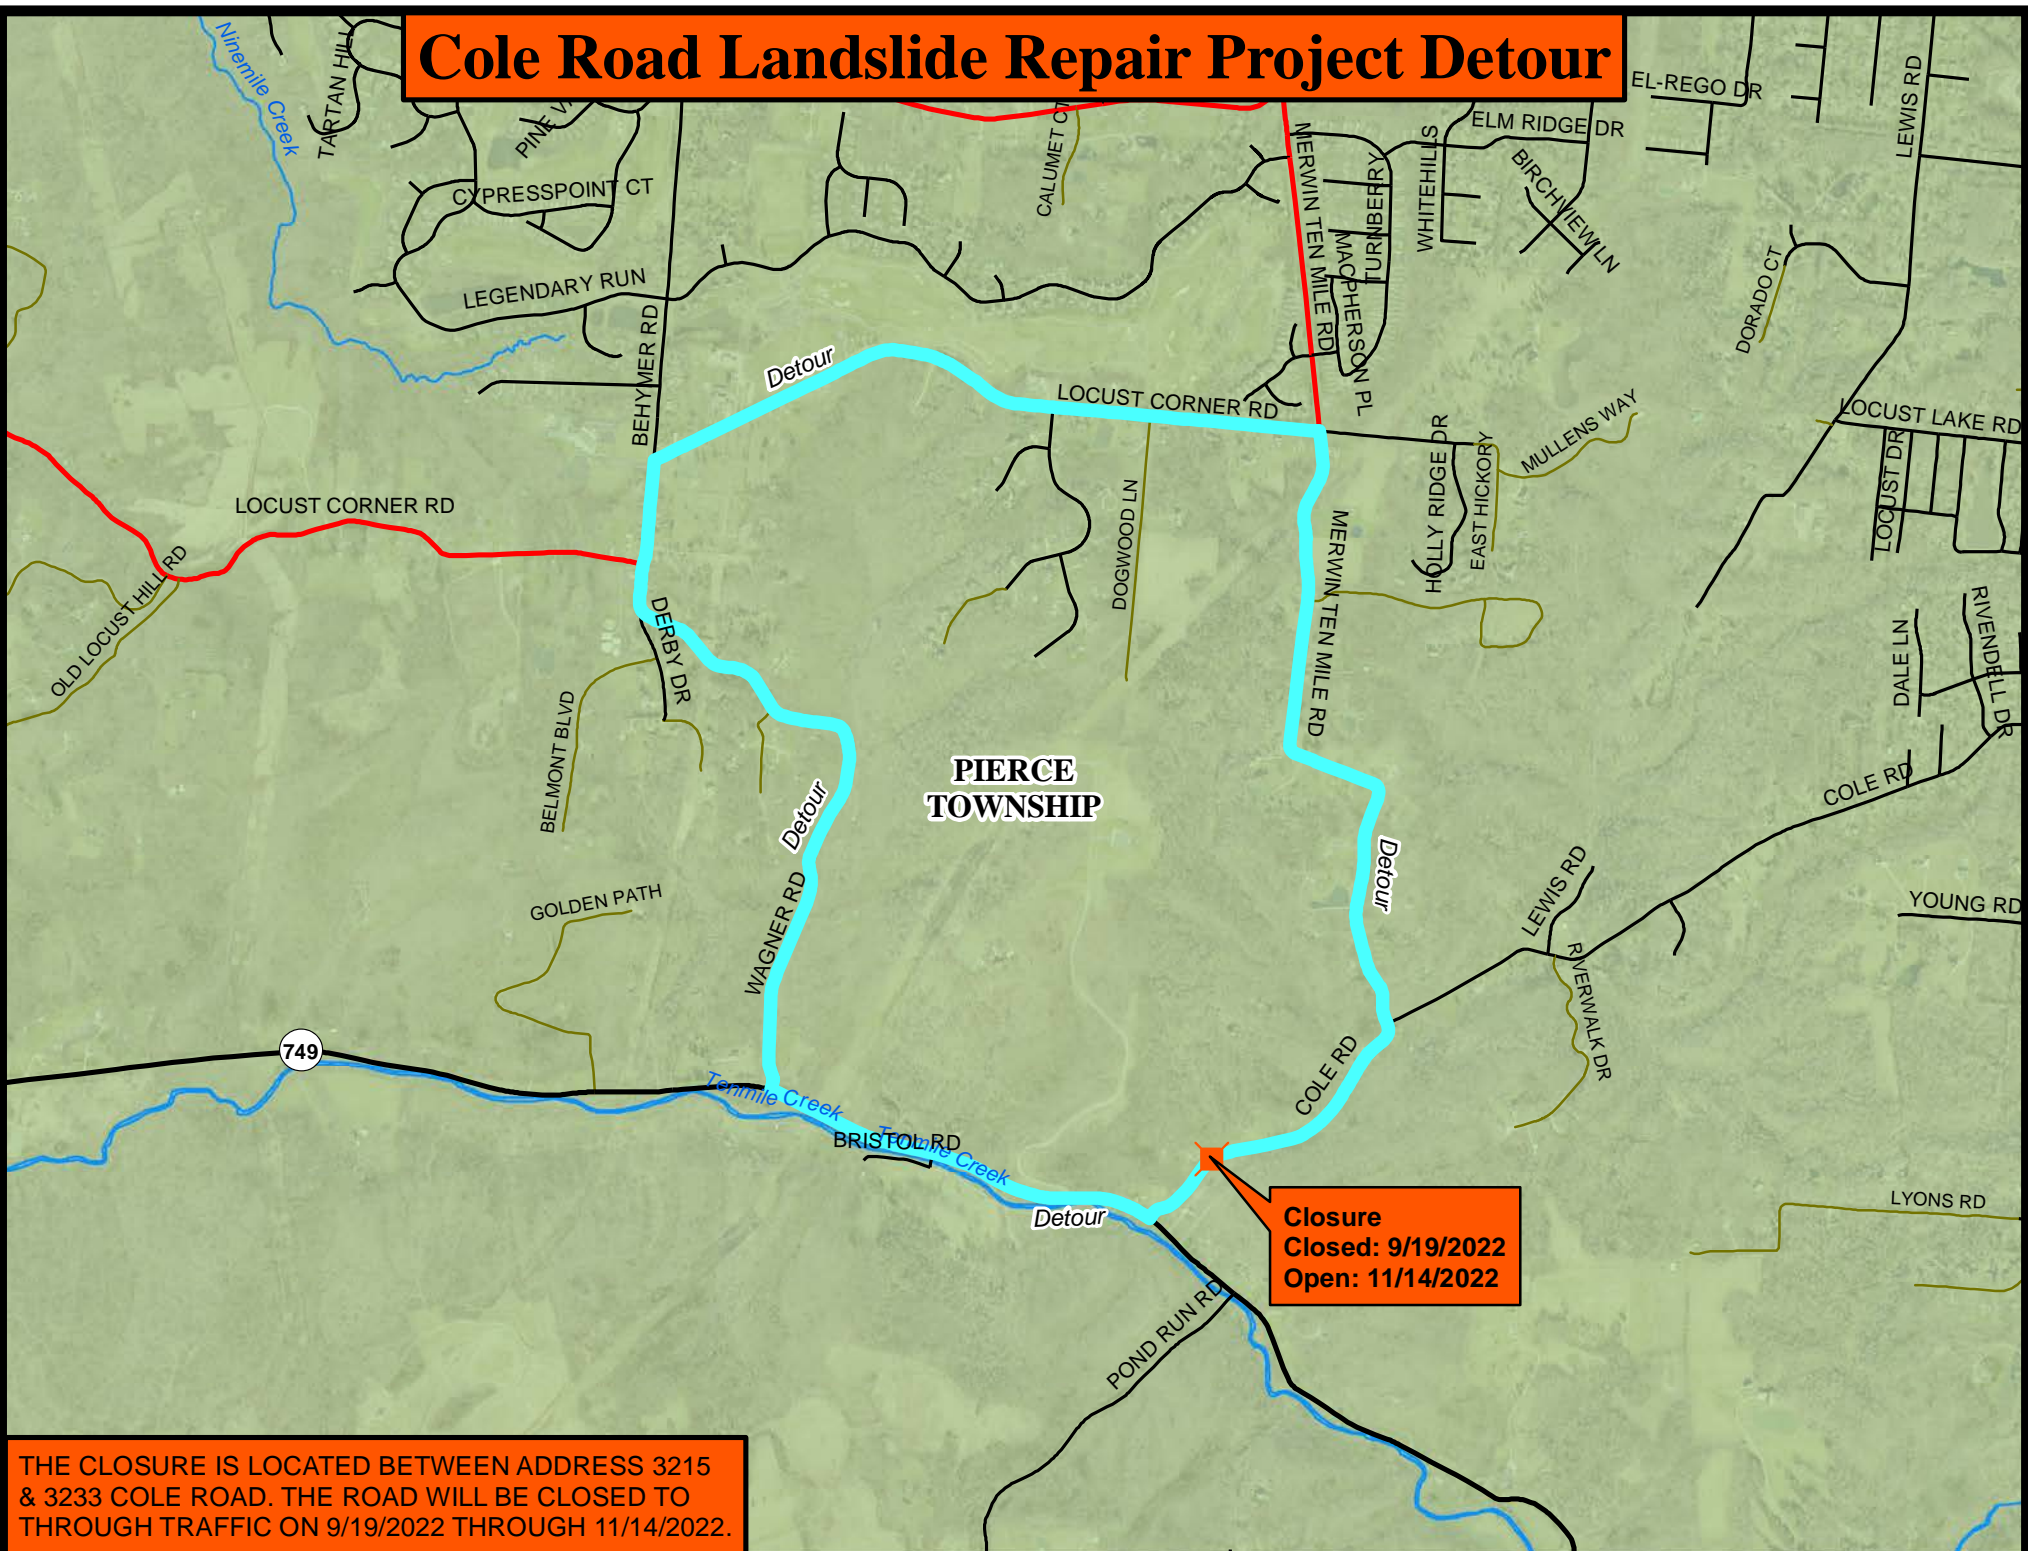

A handwritten signature in blue ink, appearing to read "J. Evans".
