Batavia, OH 45103

RE: EMERGENCY WEIGHT REDUCTION ON IRETON TREES ROAD BRIDGE T39-1.20  
Monroe Township

Dear Commissioners:

Pursuant to Section 5577.071 of the Ohio Revised Code, it has been determined that an emergency weight reduction is necessary on Ireton Trees Road Bridge T39-1.20 in Monroe Township.

After our annual inspection a new load rating has been added to Ireton Trees Road Bridge No. T39-1.20 in Monroe Township. The bridge is located approximately 300' west of West Road. The weight limit has been reduced from 30 ton to 12 ton. The roadway is still open to through traffic at this time. If the condition of the bridge worsens a full closure could occur. If that happens, we will issue an update at that time. The bridge will be repaired with the 2023 Bridge Program.

The Office of the Clermont County Engineer shall notify the Communication Center and other affected agencies. All advanced warning and detour signs will be erected and maintained for this project. **Attached is the recommended detour.**

If you have questions or need additional information, please contact Doug Royer at the Clermont County Engineer's Office at (513) 732-8857.

Sincerely,

A handwritten signature in blue ink, appearing to read "Sukie Scheetz", is written over a horizontal line.
